# Pellston "Hornets" Invade Grayling This Friday Night

with neither team scoring. T.D. Carlson, Norm Sorenson and Larry Brown turned in outstanding jobs on defense for the Vikings. This was Carlson's last game for Grayling as he is moving with his family to Lowell. On offense, Mike Youngs, Lacey Stephan and Chris Kröll ran hard for the green and white making some good gains. Howie Brown's Grayling drive was stymied either by a pass interception or fumble. A hard wind and rain storm during the game hurt the Viking aerial thrust into the game.

School Debt  
Retirement Tax  
T. B. B. B.

## To Be Reduced

At a special election held February 16th, 1934, the good people of Grayling School District No. 1 voted upon themselves for a partial reduction of the millage levied for the purpose of building and paying for a gymnasium and band and class rooms. At the regular September meeting trustees of the school board, Board of Education, to spread only seven mills on the county assessed valuation for the debt retirement, the reduction to appearing the 1934 tax. The fact that the money to be collected from this millage added to the funds already on hand will retire the debt. Barring unforeseen circumstances, the millage for the mill debt retirement tax will be reduced.

The question is so often asked why it is necessary to vote such millage for a 20 year period when

as in this instance, the debt is repaid off in seven years. It is a rule of the Michigan Municipal Finance Commission to allow time to retire the indebtedness in case of a depression or some other emergency when property assessments would necessarily be lower and hence the tax revenue less requiring this longer period of time to reach the goal.

As it is impossible to ascertain the exact liability that would retire the present debt and no more there could be monies left over which can not be used for two years. At the end of the time the school board is required to petition the Michigan Municipal Finance Commission to get permission to use the surplus. It is there should be any surplus in the best interest of the school system.

**Rep. Cederberg to Visit Grayling, Oct. 4th**

Residents of Crawford County who want to express their ideas

have an opportunity to do so in a few days when Congressman Elford A. Cederberg, of the 10th District, comes to Grayling.

In line with a practice he has followed each year, Congressman

Cederberg will be at the Court-house in Grayling between the hours of 2 p. m. and 4 p. m. on Wednesday, October 14. He said: "Congress has been in session longer than usual this year and I will not be able to visit all of the counties of the fourteenth congressional district. I will be glad to visit all of the counties of this Congressional District so I will do the next best thing and hold 'open house' at the Court-house in Grayling. I will be in Court here from 2 p. m. to 4 p. m. on Wednesday, October 14. I will be glad to visit any of the citizens of Crawford County who wish to discuss any proposition or who may be experiencing difficulties in a matter involving some Federal Agent."

Congressman Cederberg said he wished to emphasize that the Court-house appearance is not a meeting but on these visits he cordially invites all those citizens who wish to see him.

**DID YOU  
KNOW?**

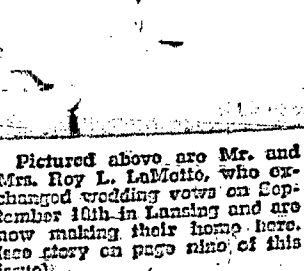

The driveway at the Down River Pines located on M-72 east of Grayling had been paved. The house owned by the Albert Wojahns.

The Moose Lodge had blacktop paving done at the entrance and driveway to the new tennis club on Silver Avenue the same day.

The driveway and entire parking area of the Grayling A. and W. Roof Beer drive-in on US-27 had been repaved.

Several private driveways in Grayling were blacktopped also including the one at the Deyoung Dawson home on McClellan st.

## CANADIAN TRIP FISHING BETTER THIS YEAR

By CLARENCE ROBERTS

A couple of weeks have past and those who went to Camp Grayling

in Northern Saskatchewan are beginning to get their feet back on the ground.

If such a thing is possible, the fishing was better this year than last. Lake Trout, Northern Pike, and Grayling, made up the catch, with literally tons of trout and pike being taken, and hundreds of Arctic grayling, of which only a small percentage were killed, the others returned to fight again another day.

No record size fish were caught, 3 lb. 4 oz. being high for the grayling, 17 1/4 lb. for northern pike and 23 1/2 lb. for lake trout.

The almost unbelievable sight of from 1 to 10 trout fighting for a lure already hanging from still another trout's mouth, was a common occurrence.

Northern pike as long as a canoe paddle, were eager to strike most any lure which came within their reach.

The delicate, beautiful Arctic grayling, which danced on the surface when picked with a No. 14 dry fly, were the prize for which, these lucky fishermen sought.

If there was anything wrong with the trip it was the length of it, for all too soon it was necessary to pack up and make the trip back home.

About the second week in Sept. 1962 will be another dream come true for 13 lucky fishermen who will again return to Northern Saskatchewan.

This year's party closed the season at Camp Grayling, leaving the area to the Indians and Carabou for another year.

Mike and Gregory MacKenzie, Billy McDowell and the many other native Indian guides will push north into the N. W. Territories to trap during the long winter, leaving Black Lake and Camp Grayling surrounded by thousands of woodland Carabou that make this area their winter feeding grounds.

With the spring breakup, the Carabou will head north, the Indians will return to Black Lake to guide other fishermen, who come to Camp Grayling in quest of the fabulous fishing found there.

Will you be one of the fortunate ones next year?

From where I sit... by Joe Marsh

### A "Moving" Story

A couple of nights ago, Bud Jones, who runs the town's local drive-in movie, got to talking about a "boner" he had pulled last summer.

Some one night he was waiting to close up when a customer came over and asked if Bud would get his car started. Turned out his battery was dead. Bud drives over to where he thinks the customer's car is parked and starts to give it a big shove.

All of a sudden, Red Dolan's head poked out of the front window. "Listen, Bud," Red says with a grin, "if you want me to go home so you can close up,

I'll go. But you don't have to push me!"  
From where I sit, a person always has to be careful not to interfere with other people's enjoyment by "pushing" his preferences. Whenever Bud has me over to dinner, he's always considerate enough to make sure there's some beer on hand for me, even though he prefers tea himself. He's respecting my right to think for myself, and not trying to "drive home" his own views.

## Should She Be Sister's 'Keeper'?

**THE WEEK'S LETTER:** "I where we go. The kid sister is plenty mad at me and our parents seem peeved, although they haven't said that I 'must' take her-out with me. Am I wrong in not wanting to be bothered?"

**OUT REPLY:** Left alone, the average boy or girl can learn to roller skate or ride a bicycle after so long a time. If someone lends a helping hand, they will learn with a minimum of bruises.

Your parents did not say that you had to take the kid sister everywhere. They just said it was permissible for her to date if she went "double" with you. Seems that you could spare one or two evenings now and then.

If you were dating different boys, you might have a serious problem. It would be tough to have to tell a boy, "O.K., but my sister has to go along too." This is no problem since you are going steady. Certainly your steady will understand—and should not object to letting the "youngsters" tag along to a movie now and then.

Your parents are thinking of your sister's welfare. Give it some thought yourself. You know that your parents certainly can't doubledate with her. And, you also know that they don't expect you to spend several years acting as a chaperone. They just want you to see she starts out right and she will be "on her own" before you know.

Actually, you should be proud that your parents have shown the great amount of confidence that they have in your own maturity and good judgment.

If you have a teenage problem you wish to discuss, or if you wish to make, address your letter to FOR ADVICE, NATIONAL YOUTH COUNCIL, 1000 ALBANY AVENUE, NEW YORK, N.Y.

**PONTIAC TRIGGERS ANOTHER TEAM OF WINNERS.** Every one is a fancy mover. Convertible. Sedan. Wagon. Two Coupes. Choice of 110, 115, 120 or 140 h.p., gas-saving 4-cylinder engine. A couple of extra cost options: Put on a 4-barrel carb and get 165 h.p. The citizen who wants even more can go for an aluminum V-8 option that pulls 185 horses.

**TEMPEST HAS A FRONT ENGINE/REAR TRANSMISSION!** (The only American car with this feature.) It gives Tempest equal weight at every wheel. It has biting traction on the bricks or in the mud. Tires last longer. Brakes take hold like they mean it! The front floor is practically flat (no big hump in the middle). Tempest seats six—easily!

Drive America's only front engine/rear transmission car... it's balanced like none of the others!

**TEMPEST HAS INDEPENDENT SUSPENSION—FRONT AND REAR!** Each wheel (and it's a big 15" one) moves up and down independently of the opposite wheel. There's no solid axle in the rear. Result: Firm ride on pavement; soft ride in the boondocks! Swing axles in the rear help the Tempest to carve out clean, firm curves.

**PLUSH NEW SERIES—THE LE MANS (LUH-MAHNZ).** The Tempest Convertible and Coupe are out this year in special custom trim. Call them the Le Mans! They both have sports-type bucket seats, full carpeting, floor mounted stick shift, acceleration rear axle option—no extra cost. Extra cost option: 4-speed gearbox. Take one out—it's a going machine!

## Taxes Are Good - But!

The National Education Association has issued a booklet entitled "Taxes Are Good". It observes that taxes are the price we pay for civilization.

This, of course, is a truism. Taxes, as one writer puts it, are good and necessary for civilization, in the same way that fire and water are good. But you don't have to burn down your house to warm your hands—and you don't have to open a dam and drown in the flood to get drink.

The "Taxes are Good" argument is used as a support for an almost endless list of government projects and proposals which advance the welfare state, reduce or destroy local rights and responsibilities, limit the freedom of groups and individuals, and dry up the normal sources of taxation—for example, housing subsidies, nursing subsidies, public power schemes, federal aid schools, federal medical aid plans, and so on.

So the "Taxes are Good" theme needs to be a carefully analyzed. They are good when levied for necessary purposes. They are bad when levied for purposes which should be undertaken, if they are to be undertaken at all, by local government or private enterprise.

"Capital punishment is when the government asks you to get capital in order to go into business in competition with you and then taxes the profits on business in order to pay its losses."—Anonymous

Cadillac presents for 1962  
the Masterwork of the  
Motoring Age

Fleetwood Sixty Special, above; Sedan de Ville, below.

You have had your first look at the new "car of cars". Its name is Cadillac—and its destiny is a place among the most renowned automobiles of our time.

Its new styling is remarkably clean and crisp and graceful—with a look of "rightness" in every line and contour and detail.

Cadillac's new Fleetwood interiors beckon with a jewel-like beauty. There are marvelous new fabrics and leathers... and new conveniences on every hand.

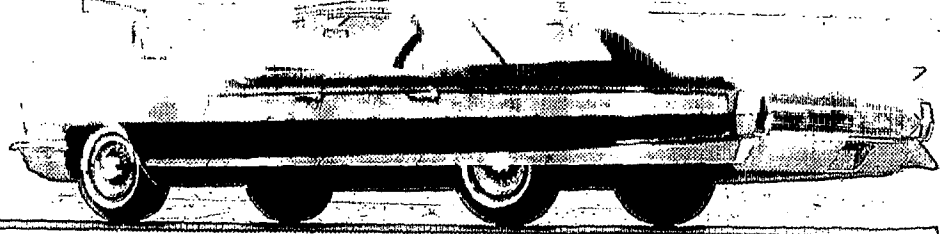

Engineering triumphs include independent front and rear braking... exclusive new cornering lamps that light your way around turns... a revolutionary three-phase rear lighting system... and many other important advances.

Yet, some of the noblest advances cannot be seen. They must be felt and sensed—performance that is incredibly quiet and smooth and nimble... handling ease so great that the mere weight of your hand puts you in command of the road... craftsmanship that is so practiced and so precise that the car has become a marvel of construction and a paragon of dependability.

These new Cadillac wonders are evident in each of twelve new body styles—and are available with the widest selection of interiors in Cadillac history.

Even if you have never before considered a Cadillac—you should take a journey in this one.

It's Cadillac for 1962. You'll be hearing a lot about it.

# Michigan's New Open, Closed Hunting Areas For Sharp-tailed Grouse, Prairie Chickens

NOTE: South boundary of area posted from Shores to U.S. 27.

Michigan hunters will find several changes in this fall's seasons on sharp-tailed grouse and prairie chickens. Drummond Island and a portion of Ontonagon county (top map) will be off limits to sharp-tailed grouse hunting during the upper peninsula's Oct. 1-Nov. 10 season because of the birds' low populations there. Elsewhere above the Straits the combined bag limit has been increased to two birds per day, four in possession, and eight in season to allow for a general decline in sharp-tailed and prairie chicken numbers. Prairie chickens will again be protected by a closed season in the northern lower peninsula, but a seven-year ban on sharp-tailed hunting will be lifted in this part of the state. Concluded by a daily 10 a.m. opening and timed with the first week of the pheasant season to check overhunting, an October 20-27 sharp-tailed season will be in effect in parts of Antrim, Oshtemo, Missaukee, Crawford, Roscommon, and Kalamazoo counties. Mrs. Longdyke and daughter Doreen spent a few days at the Hideout over the weekend before last. Mrs. L. took Doreen to our well-known Fish Hatchery, a little item that was still on Mrs. L's list of Dos for the summer. Mrs. L. returned home after Labor Day to get the girls back in school, Doreen to her elementary studies and Joanne to Cosmetology College. For five years Mrs. L. has planned on returning to her Hideout after Labor Day for a preview of Fall and at long last she made it. Doreen and her mother returned to their home last week, with Mrs. L. in hopes of coming back to see Michigan's Fall in all its splendor and array of color.

Mrs. Augusta Allen enjoyed a trip to Pontiac Sunday, the 17th, to visit her son Sam Smith and family. She and Sam took an excursion trip to Bay City on the railroad, on the last of the steam driven trains. Over 800 people made the trip, which required 17 coaches, 2 gondolas, snack car and the caboose to carry them all. While Mrs. Allen was at the Smith home, Mrs. Lydia Woods and family called on the Smiths.

## First Girlstown Unit Established In 1928

So that people might know a little more about one of the projects sponsored by the Michigan Federation of Women's Clubs, the local group has furnished the following information on Girlstown to the Avalanche:

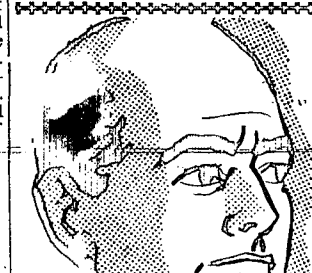

Loch Rio, 330 Liberty Street, Belleville, Michigan, the first unit of Girlstown, has as its director Miss Esther Bain, and its consulting psychiatrist, Dr. Sara Dubo. This unit was established in 1928. It is located one mile off the expressway, midway between Detroit and Arbor. The unit

capacity is nine girls. The small groups make individual attention possible. The purpose of Girlstown is to provide a therapeutically designed living experience with homelike atmosphere for girls with emotional problems not so severe as to require full time psychiatric treatment, to provide training, guidance and counseling, to help them gain emotional stability so that each may go out to live a happy purposeful life. Girls from 10 years of age and over of at least normal intelligence and sufficiently stable to attend the regular public school are eligible. The habitual truant or the promiscuous girl cannot be accepted. The home is open to girls of all faiths.

Now a great new exclusive from Buick

ADVANCED  
THRUST

More power forward for arrow-straight going

It puts the engine ahead like the tip of an arrow • It tames "wind wander" and road sway • It sweeps you forward in a hush of luxury • It turns the floor hump into foot space.

WHAT IT IS—Buick's big new move: It positions the great new Wildcat V-8 and Turbine Drive way up front over Buick's front wheels.

WHAT IT DOES—As the engine went forward, the floor hump went DOWN. And, the forward weight makes wheel response far quicker, cornering far surer, ride far smoother.

WHY YOU'LL LOVE IT—It's the closest you can come to sports car handling in a passenger car. Distances shrink before its 4-6-3 "Hills" disappear. Lean on curves is gone because the frame's gone wider. Winds don't make you wander. It's going at its Buick best!
